The story begins on St. Stephen's Day, 2010, in St. John's, NL, when the author gives birth to a baby girl named Sadie Jane who has a shock of snow-white hair. After three months of medical testing, Sadie is diagnosed with albinism, a rare genetic condition where pigment fails to form in the skin, hair and eyes. She is visually impaired and faces a lifetime indoors. A journalist and folklore scholar accustomed to processing the world through other people's stories, Emily is drawn to understanding her child's difference by researching the cultural beliefs associated with albinism worldwide.

Like any new mother, Emily is thrilled when her first child, a daughter, is born. The baby, Sadie, is healthy and stunningly beautiful, with snow white hair and fair skin. Even the doctors and nurses can't help a second look at this magical child. But soon a darker current begins to emerge—something is amiss. After three months of testing, Sadie is diagnosed with albinism, a rare genetic condition. Emily, a folklore scholar and an award-winning journalist, is accustomed to understanding and processing the world through stories. With Sadie at her side, Emily researches the cultural beliefs surrounding albinism and finds a curious history of outlandish tales of magic, and of good and evil reaching back through time, along with present-day atrocities. In some parts of the world, people with albinism are stalked; their condition is seen to bring luck and health as well as danger and death. Investigating the different reactions, in different cultures, to those with albinism, Emily begins to see her child as a connection between worlds. Part memoir, part cultural critique, and part genetic travelogue, Beyond the Pale is a brave, intimate investigation into the secret histories that each of us carries in our genes and an inspiring and beautiful

memoir about parenting a child with a disability—and building a better future for that child.

A moving portrait of a father and daughter relationship and a case for late-stage creativity from Emily Urquhart, the bestselling author of *Beyond the Pale: Folklore, Family, and the Mystery of Our Hidden Genes*. “The fundamental misunderstanding of our time is that we belong to one age group or another. We all grow old. There is no us and them. There was only ever an us.” – from *The Age of Creativity* It has long been thought that artistic output declines in old age. When Emily Urquhart and her family celebrated the eightieth birthday of her father, the illustrious painter Tony Urquhart, she found it remarkable that, although his pace had slowed, he was continuing his daily art practice of drawing, painting, and constructing large-scale sculptures, and was even innovating his style. Was he defying the odds, or is it possible that some assumptions about the elderly are flat-out wrong? After all, many well-known visual artists completed their best work in the last decade of their lives, Turner, Monet, and Cézanne among them. With the eye of a memoirist and the curiosity of a journalist, Urquhart began an investigation into late-stage creativity, asking: Is it possible that our best work is ahead of us? Is there an expiry date on creativity? Do we ever really know when we’ve done anything for the last time? *The Age of Creativity* is a graceful, intimate blend of research on ageing and creativity, including on progressive senior-led organizations, such as a home for elderly theatre performers and a gallery in New York City that only represents artists over sixty, and her experiences living and travelling with her father. Emily Urquhart reveals how creative work, both amateur and professional, sustains people in the third act of their lives, and tells a new story about the possibilities of elderhood.

When a beautiful princess refuses to marry the prince her father has chosen, her father is furious and locks her in a tower. She has seven long years of solitude to think about her insolence. But the princess is not entirely alone - she has her maid, Dashti. Petulant and spoiled, the princess eats the food in their meagre store as if she were still at court, and Dashti soon realises they must either escape or slowly starve. But during their captivity, resourceful Dashti discovers that there is something far more sinister behind her princess's fears of marrying the prince, and when they do break free from the tower, they find a land laid to waste and the kingdom destroyed. They were safe in the tower, now they are at the mercy of the evil prince with a terrible secret. Thrilling, captivating, and a masterful example of storytelling at its best. The princess's maid is a feisty and thoroughly modern heroine, in this wonderfully timeless story.

Winner of the Commonwealth Writers' Prize for Best Book, Caribbean & Canada and the Canadian Authors Association Literary Award; Finalist for the Governor General's Literary Award for Fiction, the Thomas Head Raddall Atlantic Book Award, and the Winterset Award When a whale beaches itself on the shore of the remote coastal town of Paradise Deep, the last thing any of the townspeople expect to find inside it is a man, silent and reeking of fish, but remarkably alive. The discovery of this mysterious person, soon christened Judah, sets the town scrambling for answers as its most prominent citizens weigh in on whether he is man or beast, blessing or curse, miracle or demon. Though Judah is a shocking addition, the town of Paradise Deep is already full of unusual characters. King-me Sellers, self-appointed patriarch, has it in for an inscrutable woman known only as Devine's Widow, with whom he has a decades-old feud. Her granddaughter, Mary Tryphena, is just a child when Judah washes ashore, but finds herself tied to him all her life in ways she never expects. Galore is the story of the saga that develops between these families, full of bitterness and love, spanning two centuries. With Paradise Deep, award-winning novelist Michael Crummey imagines a realm where the line between the everyday and the otherworldly is impossible to discern. Sprawling and intimate, stark and fantastical, Galore is a novel about the power of stories to shape and sustain us.

In this moving, uniquely honest, and transformative collection of original essays, twenty-five celebrated writers share one of their most intimate and life-changing experiences: childbirth. Featuring an introduction by bestselling author and columnist Leah McLaren, *Great Expectations* takes the reader on an emotional and physical journey like no other: Lynn Coady relates the painful memory of her teenage pregnancy and the anguish of having to give up her newborn for adoption; Peter Behrens expresses a father's feeling of utter helplessness and incomparable joy during the birth of his first child; Christy Ann Conlin describes pregnancy and birth at age forty; Afua Cooper reflects upon the immigrant's experience of three pregnancies and childbirths in a new land with foreign, and evolving, customs; Anne Fleming contemplates her partner's artificial insemination and the birth of a beautiful girl; and Jaclyn Moriarty transcribes her grandmother's and her mother's birth stories, along with her own, to create a tender oral history spanning three generations.

Fairy tales shape how we see the world, so what happens when you identify more with the Beast than Beauty? If every disabled character is mocked and mistreated, how does the Beast ever imagine a happily-ever-after? Amanda Leduc looks at fairy tales from the Brothers Grimm to Disney, showing us how they influence our expectations and behaviour and linking the quest for disability rights to new kinds of stories that celebrate difference. "Leduc persuasively illustrates the power of stories to affect reality in this painstakingly researched and provocative study that invites us to consider our favorite folktales from another angle." –Sara Shreve, *Library Journal*
