A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her *Manual for Writers* continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.

Each year writers and editors submit over three thousand grammar and style questions to the Q&A page at The Chicago Manual of Style Online. Some are arcane, some simply hilarious—and one editor, Carol Fisher Saller, reads every single one of them. All too often she notes a classic author-editor standoff, wherein both parties refuse to compromise on the "rights" and "wrongs" of prose styling: "This author is giving me a fit." "I wish that I could just DEMAND the use of the serial comma at all times." "My author wants his preface to come at the end of the book. This just seems ridiculous to me. I mean, it's not a post-face." In *The Subversive Copy Editor*, Saller casts aside this adversarial view and suggests new strategies for keeping the peace. Emphasizing habits of carefulness, transparency, and flexibility, she shows copy editors how to build an environment of trust and cooperation. One chapter takes on the difficult author; another speaks to writers themselves. Throughout, the focus is on serving the reader, even if it means breaking "rules" along the way. Saller's own foibles and misadventures provide ample material: "I mess up all the time," she confesses. "It's how I know things." Writers, Saller acknowledges, are only half the challenge, as copy editors can also make trouble for themselves. (Does any other book have an index entry that says "terrorists. See copy editors"?) The book includes helpful sections on e-mail etiquette, work-flow management, prioritizing, and organizing computer files. One chapter even addresses the special concerns of freelance editors. Saller's emphasis on negotiation and flexibility will surprise many copy editors who have absorbed, along with the dos and don'ts of their stylebooks, an attitude that their way is the right way. In encouraging copy editors to banish their ignorance and disorganization, insecurities and compulsions, the Chicago Q&A presents itself as a kind of alter ego to the comparatively staid *Manual of Style*. In *The Subversive Copy Editor*, Saller continues her mission with audacity and good humor.

From legendary playwright August Wilson comes the powerful, stunning dramatic bestseller that won him critical acclaim, including the Tony Award for Best Play and the Pulitzer Prize. Troy Maxson is a strong man, a hard man. He has had to be to survive. Troy Maxson has gone through life in an America where to be proud and black is to face pressures that could crush a man, body and soul. But the 1950s are yielding to the new spirit of liberation in the 1960s, a spirit that is changing the world Troy Maxson has learned to deal with the only way he can, a spirit that is making him a stranger, angry and afraid, in a world he never knew and to a wife and son he understands less and less. This is a modern classic, a book that deals with the impossibly difficult themes of race in America, set during the Civil Rights Movement of the 1950s and 60s. Now an Academy Award-winning film directed by and starring Denzel Washington, along with Academy Award and Golden Globe winner Viola Davis.
