In the context of child protection and domestic violence, collectivism has relevance because family needs, most especially its reputation, are likely to be prioritised over the needs of individuals [ 16 ]. It is for this reason that it plays a critical role in theoretically framing the needs and experiences of ethnic minorities.

Nationally, domestic violence is reported to be an issue in approximately 75% of cases where children are subject to a child protection plan. Domestic violence was a factor in three-quarters of cases where children had been killed or seriously injured. All agencies need to work together to identify and protect these children/young people.

The impact of domestic abuse on children and young people. Domestic violence has a devastating impact on children and young people that can last into adulthood. Domestic abuse services offer specialist emotional and practical support for children and young people affected by domestic abuse. One in seven (14.2%) children and young people under the age of 18 will have lived with domestic violence at some point in their childhood.
