When Business and Personal Values Collide "Defining moments" occur when managers face business decisions that trigger conflicts with their personal values. These moments test a person's commitment to those values and ultimately shape their character. But these are also the decisions that can make or break a career. Is there a thoughtful, yet pragmatic, way to make the right choice? Bestselling author Joseph Badaracco shows how to approach these dilemmas using three case examples that, when taken together, represent the escalating responsibilities and personal tests managers face as they advance in their careers. The first story presents a young manager whose choice will affect him only as an individual; the second, a department head whose decision will influence his organization; the third, a corporate executive whose actions will have much larger, societal ramifications. To guide the decision-making process, the book draws on the insights of four philosophers--Aristotle, Machiavelli, Nietzsche, and James--who offer distinctly practical, rather than theoretical, advice.Defining Moments is the ultimate manager's guide for resolving issues of conflicting responsibility in practical ways.

How to find clarity amid the turbulence of work and life We all wish we had more time to pause and reflect about small decisions and big goals—and everything in between. But since we live and work in a vortex of tasks, meetings, decisions, and responsibilities, we rarely get the chance to step back. In this practical guide, bestselling author and Harvard Business School professor Joseph Badaracco argues that you don't need long periods of solitude and tranquility to reflect well. In fact, reflection can take place in the cracks and crevices of your very busy life, and these moments can help you understand your feelings, look at problems from different perspectives, focus on what really matters, and, ultimately, lead a better life. Building on candid interviews with over a hundred executives and professionals, as well as on the classic works of Marcus Aurelius, Michel de Montaigne, and Ignatius of Loyola, Badaracco offers simple, customizable principles and ideas for reflection that lend a gentle discipline to an otherwise nebulous process. Concise, smart, and pragmatic, Step Back is the guide you need to make reflection a positive force in your work and life.

Badaracco (business ethics, Harvard) observes that the most effective leaders are rarely public heroes or high-profile champions of causes. His study of "quiet leadership," carried out over four years, presents a series of stories describing quiet leaders at work and drawing practical lessons for executives and aspiring corporate leaders. The cases include a hospital CEO dealing with a case of sexual harassment; a bank president under pressure to remove underperforming but longtime employees; and a high-tech marketing rep who learned that his company was dumping obsolete equipment on its small customers. Leadership is struggle The question of how to lead successfully and responsibly is crucially important in our uncertain, high-pressure, turbulent world. In this book, Harvard Business School Professor Joseph Badaracco answers this question in practical and, at times, provocative ways. Leaders today are surrounded by what Badaracco calls "the new invisible hand"—powerful, pervasive markets that touch and shape almost everything. As a result, understanding the inevitability and importance of struggle is critical. And leaders must go a step further to create what Badaracco calls "the good struggle" in order to meet their goals at work, as well as their goals in life. The Good Struggle helps you meet the relentless challenges of being a leader today by identifying the most important questions you should be asking yourself. New answers to these questions can be found by watching leaders in dynamic settings, especially entrepreneurs. The conditions entrepreneurs have always faced—intense competition, scarce resources, and unforgiving markets—are true now for the rest of us, and they offer valuable, practical lessons about struggling and succeeding in volatile and uncertain environments. If "the joy of life is in the struggle," as one thoughtful entrepreneur put it, The Good Struggle can help you find meaning in your work, stay focused on what matters despite the turbulence around you, and keep you on the path to leading successfully and responsibly.

How to Resolve the Really Hard Problems Every manager makes tough calls—it comes with the job. And the hardest decisions are the "gray areas"—situations where you and your team have worked hard to find an answer, you've done the best analysis you can, and you still don't know what to do. But you have to make a decision. You have to choose, commit, act, and live with the consequences and persuade others to follow your lead. Gray areas test your skills as a manager, your judgment, and even your humanity. How do you get these decisions right? In Managing in the Gray, Joseph Badaracco offers a powerful, practical, and even radical way to resolve these problems. Picking up where conventional tools of analysis leave off, this book provides tools for judgment in the form of five revealing questions. Asking yourself these five questions provides a simple yet profound way to broaden your thinking, sharpen your judgment, and develop a fresh perspective. What makes these questions so valuable is that they have truly stood the test of time—they've guided countless men and women, across many centuries and cultures, to resolve the hardest questions of work, responsibility, and life. You can use the five-question framework on your own or with others on your team to help you cut through complexities, understand critical trade-offs, and develop workable solutions for even the grayest issues.

Through rich analysis of the main characters in "The Death of a Salesman, The Secret Sharer, The Last Tycoon," and other stories, Badaracco addresses complex issues leaders face, such as the soundness of their vision, their readiness to take on responsibility, the depth of their compassion, and their ability to manage success.

Grappling with the Gray offers a collection of case studies, real and hypothetical, intended to ignite thoughtful consideration of ethical dilemmas in our personal and professional lives. Simply stated, a business culture driven by profits at the expense of values is destined to fail. Research shows that companies ranked highest for ethics grow faster than companies that aren't. Work environments are more pleasant. Employees are more satisfied, engaged, loyal, passionate, and productive. Turnover costs are less. Brand image shines. Cultivating a culture of ethics is the time-tested formula for spectacular success. The thought questions and discussions that follow each case study offer the opportunity to develop the ethical mindset that enables us to see the bigger picture, engage in civil debate, and work effectively toward consensus. Raising our ethical awareness ultimately produces a culture where compliance laws take care of themselves and a workforce that feels empowered, appreciated, and invested in a common vision that accelerates success.

The New York Times and Washington Post bestseller that changed the way millions communicate "[Crucial Conversations] draws our attention to those defining moments that literally shape our lives, our relationships, and our world. . . . NAACP 2017 Image Award Winner With his trademark acerbic wit, incisive humor, and infectious paranoia, one of our foremost comedians and most politically engaged civil rights activists looks back at 100 key events from the complicated history of black America. A friend of luminaries including Dr. Martin Luther King, Jr. and Medgar Evers, and the forebear of today's popular black comics, including Larry Wilmore, W. Kamau Bell, Damon Young, and Trevor Noah, Dick Gregory was a provocative and incisive cultural force for more than fifty years. As an entertainer, he always kept it indisputably real about race issues in America, fearlessly lacing laughter with hard truths. As a leading activist against injustice, he marched at Selma during the Civil Rights movement, organized student rallies to protest the Vietnam War; sat in at rallies for Native American and feminist rights; fought apartheid in South Africa; and participated in hunger strikes in support of Black Lives Matter. In this collection of thoughtful, provocative essays, Gregory charts the complex and often obscured history of the African American experience. In his unapologetically candid voice, he moves from African ancestry and surviving the Middle Passage to the creation of the Jheri Curl, the enjoyment of bacon and everything pig, the headline-making shootings of black men, and the Black Lives Matter movement. A captivating journey through time, Defining Moments in Black History explores historical movements such as The Great Migration and the Harlem Renaissance, as well as cultural touchstones such as Sidney Poitier winning the Best Actor Oscar for Lilies in the Field and Billie Holiday releasing Strange Fruit. An engaging look at black life that offers insightful commentary on the intricate history of the African American people, Defining Moments in Black History is an essential, no-holds-bar history lesson that will provoke, enlighten, and entertain.
