This space-themed word wall is designed to help teach your class about Earth's place in space. It features a set of colourful word cards (four per A4) which cover the main vocabulary of space used during the Year 5 science topic. The word wall can be used as a prompt for independent writing and as a space-themed display containing essential words on the topic.

5 APRIL 2018. In 2017, NASA space probes detected a massive, human-made 'barrier' surrounding Earth. And tests have confirmed that it's actually having an effect on space weather far beyond our planet's atmosphere. That means we're not just changing Earth so severely, scientists are calling for a whole new geological epoch to be named after us - our activities have been changing space too.

~~There's a Detectable Human-Made Barrier Surrounding Earth~~

Earth & Space Research (ESR) is a Seattle-based, nonprofit institute specializing in oceanographic research. Our research at ESR covers a wide range of topics from polar oceanography to equatorial studies. We also conduct frequent K-12 outreach activities, introducing kids to basics of oceanography and climate through hands-on learning.
