Jack S. Blocker Jr. traces the Women's Temperance Crusade of 1873-74 from its origins in public lectures by health reformer Dio Lewis through its rapid spread across the nation, to its culmination in the Women's Christian Temperance Union. The non-violent tactics of the Crusaders are described, and their progression from meetings to marches and occasional political campaigning is explored, along with the responses, ranging from active support to violent opposition, that the Crusade evoked. An analysis of causation critically examines previous explanations for the Crusade's timing, location, and composition before concluding that a concurrent rise in alcohol consumption and a decline in liquor-law enforcement produced the movement. A discussion of relations between suffragists and Crusaders helps to clarify the place of the Crusade among nineteenth-century reform movements. The ways in which the movement ended reveal the Crusaders' determination to achieve their goals and the nature of their opposition. Finally, Blocker explores the effects of the Crusade upon male politics and drinking and upon women's organizing as an independent force for reform.

Before the American Civil War, men and women who imagined a multiracial American society (social visionaries) included Protestant sacred music in their speeches and writings. Music affirmed the humanity and equality of Indians, whites and blacks and validated blacks and Indians as Americans. In contrast to dominant voices of white racial privilege, social visionaries criticized republican hypocrisy and Christian hypocrisy. Many social visionaries wrote hymns, transcending racial lines and creating a sense of equality among singers and their audience. Singing and reading Protestant sacred music encouraged community formation that led to American human rights activism in the 19th and 20th centuries.
