by Ben Johnson. The House of Stewart (or 'Stuart' as it later became) was established by Robert II of Scotland during the late 14th century and the Stuart rule spanned from 1371 to 1714. Initially rulers of Scotland only, the dynasty also went on to inherit the Kingdoms of England and Ireland. However, despite the longevity of the Stuart reign and Scotland's prosperity and modernisation during the beginning of the Renaissance, the monarchs of the House were not without their failings.

The Stuart Monarchs - Historic UK

Despite early unrest and weak government caused by several Stewart kings succeeding as minors, the dynasty flourished for over three centuries. During this time, Scotland moved forward to become a modern and prosperous nation. Stewart monarchs such as King James IV and VI were Renaissance patrons of artistic, scientific, commercial, religious and political endeavour, sponsoring figures including the poet Robert Henryson and humanist George Buchanan.

The Stewarts | The Royal Family

The House of Stuart, originally Stewart, was a royal house of Scotland, England, Ireland and later Great Britain. The family name itself comes from the office of High Steward of Scotland, which had been held by the family scion Walter fitz Alan (c. 1150). The name "Stewart" and variations had become established as a family name by the time of his grandson, Walter Stewart.

House of Stuart - Wikipedia

James Francis Edward was born 10 June 1688, at St. James's Palace.He was the son of King James II of England and Ireland (VII of Scotland) and his Roman Catholic second wife, Mary of Modena, and, as such, was automatically Duke of Cornwall and Duke of Rothesay, among other titles. [citation needed]The prince's birth was controversial and, coming five years after his mother's last pregnancy ...

James III is the most enigmatic of the Stewart kings of Scotland. Variouslly characterised as artistic, peace-loving, morbidly suspicious, treacherous, pious, lecherous and lazy, King James was much criticised by contemporaries and later chroniclers for his failure to do his job in the manner expected of him, and particularly for his reliance on low-born favourites to the exclusion of his 'natural' counsellors, the nobility. Specific complaints included debasement of the coinage, royal hoarding of money, failure to staunch feuds and to enforce criminal justice. Yet James III has also been seen as a major patron of the arts, as Scotland's first Renaissance king, and as the architect of an intelligent and forward-looking foreign policy. In this new study, the author explores all these areas and seeks to explain why King James was challenged by a huge rebellion in 1482, which he narrowly survived, and why he succumbed to a further rising in 1488, which placed his eldest son on the throne as James IV.

James III is the most enigmatic of the Stewart kings of Scotland.

In this study of the reign of James II of Scotland, the king is viewed in the context of the Stewart monarchy, from his struggles to overcome his early adversity and the legacy of his father's style of kingship, to the serious political crises of his reign. The relations between the king and his subjects, and the complex balance of power in medieval Scotland are examined, particularly the significant crisis precipitated by James II's attack on the Black Douglases, the greatest of all late medieval magnate families. The changing nature of political involvement among the nobility and the role of Parliament in influencing events are explored, as are the efforts of the king to recover and promote royal authority in the final years of his reign. The role of James II in the wider European context is also studied with a view to shedding light on contemporary perceptions of the Stewart monarchy both at home and abroad. The study is based on contemporary chronicle and official sources, and consideration is also given to later, highly coloured views of James II, which have influenced popular views of the king to the present day.

Offers an irreverent take on the royal family that united Great Britain, chronicling the trials and triumphs of a dynasty that oversaw the rise of English Protestantism and the evolution of modern British democracy.

James IV is the best-known of all the late medieval Scottish rulers. Widely praised by his contemporaries, he combined the qualities of successful medieval monarch with a wide interest in the arts and sciences, while remaining acutely conscious of the need to enhance the prestige of his dynasty throughout Europe. This excellent study examines all aspects of James IV's sovereignty, explains his popularity and his highly successful kingship and assesses reasons for the disastrous end to the reign when the king and a large population of the Scottish nobility were eliminated in a single afternoon in 1513 at Flodden. This book represents Scottish historical research at its very best. It is meticulously researched and sensitively written.

"Compelling...A masterly feat...A magnificent, sweeping, authoritative, warm yet wry history." --The Wall Street Journal
In this fascinating and intimate portrait of the Stuarts, author Allan Massie takes us deep into one of history's bloodiest and most tumultuous reigns. Exploring the family's lineage from the first Stuart king to the last, The Royal Stuarts is a panoramic history of the family that acted as a major player in the Scottish Wars of Independence, the Union of the Crowns, the English Civil War, the Restoration, and more. Drawing on the accounts of historians past and present, novels, and plays, this is the complete story of the Stuart family, documenting their path from the salt marshes of Brittany to the thrones of Scotland and England and eventually to exile. The Royal Stuarts brings to life figures like Mary, Queens of Scots, Charles I, and Bonnie Prince Charlie, uncovering a family of strong affections and fierce rivalries. Told with panache, this is the gripping true story of backstabbing, betrayal, and ambition gone awry.

Conditioned by a childhood surrounded by the rivalries of the Stewart family, and by eighteen years of enforced exile in England, James I was to prove a king very different from his elderly and conservative forerunners. This major study draws on a wide range of sources, assessing James I's impact on his kingdom. Michael Brown examines James's creation of a new, prestigious monarchy based on a series of bloody victories over his rivals and symbolised by lavish spending at court. He concludes that, despite the apparent power and glamour, James I's 'golden age' had shallow roots; after a life of drastically swinging fortunes, James I was to meet his end in a violent coup, a victim of his own methods. But whether as lawgiver, tyrant or martyr, James I has cast a long shadow over the history of Scotland.

Whether viewed as a lawgiver, tyrant or martyr, James I has cast a long shadow over the history of Scotland. Michael Brown's biography, the first full-length study in over fifty years, concludes that despite its apparent glamour and power, James I's 'golden age' had shallow roots: after a life of drastically swinging fortunes, he met his end in a violent coup, a victim of his own methods.
