A compilation of miraculous, spiritual and paranormal stories as recorded by the David A. Richardson and Justin V. Richardson families. These experiences are strong evidence that there is life after death, and that the gospel of Jesus Christ is true. They show that God loves us, and is continually watching over our lives and our needs. There is also evidence that we lived in a pre-existent state. The families represented herein are of the LDS faith (The Church of Jesus Christ of Latter-day Saints), and their stories tend to support the doctrines and tenets of that religion.

Are you on fire for Jesus like you want to be? Have you ever experienced the Christian "burn out"? The theory of the "Fire Triangle" states that you need three things to keep a fire burning; heat, fuel, and oxygen. Remove any one of these, and the fire will go out. The same can be said of your fire for God! We have an encounter with God, we get on fire, then we burn out. Sadly, this is the story of many believers lives. But this is not the life Jesus called us to live. Matthew 5 tells us in three simple steps, exactly what our "job" as followers of Christ is supposed to look like. 1. Get Lit. 2. Stay Lit. 3. Spread It! The key to not burning out lies in understanding what our heat, fuel and oxygen are. Once we understand these, and keep them active in our daily lives, our fire will NEVER burn out. And that is what Jesus intended for us all along when He said, "You are the light of the world, like a city on a hilltop that cannot be hidden." This book will teach you how easy it is to truly get on fire for God and stay on fire. By applying the theory of the "fire triangle," looking at stories from the Bible, and personal testimonies, you will be inspired to become a wild fire for Jesus by getting lit, staying lit, and spreading it!

Twenty-year-old Skyler saw the incident out her window: Some sort of metallic object hovering over the Golden Gate Bridge just before it collapsed and a mushroom cloud lifted above the city. Like everyone,

she ran, but she couldn't outrun the radiation, with her last thoughts being of her beloved baby brother, Dorian, safe in her distant family home. Flash forward to a post-incident America, where the country has been broken up into territories and Muslims have been herded onto the old Indian reservations in the west, even though no one has determined who set off the explosion that destroyed San Francisco. Twelve-year old Dorian dreams about killing Muslims and about his sister—even though Dorian's parents insist Skyler never existed. Are they still shell-shocked, trying to put the past behind them . . . or is something more sinister going on? Meanwhile, across the street, Dorian's neighbor adopts a Muslim orphan from the territories. It will set off a series of increasingly terrifying incidents that will lead to either tragedy or redemption for Dorian, as he struggles to prove that his sister existed—and was killed by a terrorist attack. *Not on Fire, but Burning* is unlike anything you're read before—not exactly a thriller, not exactly sci-fi, not exactly speculative fiction, but rather a brilliant and absorbing adventure into the dark heart of an America that seems ripped from the headlines. But just as powerfully, it presents a captivating hero: A young boy driven by love to seek the truth, even if it means his deepest beliefs are wrong.
