The bookstore patron, Rob Boynton, a journalist himself, eventually asked why I was working the nightshift at a 24-hour bookstore that seemed to specialize in Conspiracy Magazine for men and manuals ...

This densely illustrated, hands-on guide to diesel engine maintenance, troubleshooting, and repair renders its subject more user-friendly than ever before. Finally, boatowners who grew up with gas engines can set aside their fears about tinkering with diesels, which are safer and increasingly more prevalent. As in other volumes in the International Marine Sailboat Library, every step of every procedure is illustrated, so that users can work from the illustrations alone. The troubleshooting charts in the second chapter—probably the most comprehensive ever published—are followed by system-specific chapters, allowing readers to quickly diagnose problems, then turn to the chapter with solutions. Diesel engine systems covered include: mechanical; oil; fresh- and raw-water cooling; low- and high-pressure fuel; exhaust; starting; charging; transmission and stern gear.

Negotiation Excellence: Successful Deal Making is written by leading negotiation experts from top-rated universities in the US and in Asia and its objective is to introduce readers to the theory and best practices of effective negotiation. The book includes chapters ranging from: preparing and planning for successful negotiations; building relationships and establishing trust between negotiators; negotiating creatively to create mutual value and win-win situations; understanding and dealing with negotiators from different cultures; to managing ethical dilemmas. In addition to emphasizing the link between theory and practice, the book includes deal examples such as: Renault-Nissan alliance; mega-merger between Arcelor and Mittal Steel; Kraft Foods' acquisition of Cadbury PLC; Walt Disney Company's negotiation with the Hong Kong government; and Komatsu, a Japanese firm's negotiation with Dresser, an American firm. Following the success of the first edition, the second edition re-emphasizes the spirit of linking theory to practice with two new chapters on emotions in negotiation and the Indian negotiation style.

How Cool Are Penguins is a book that will introduce young children to the world of penguins. It is written and illustrated in a fun and informative way that will entertain both the young and the young at heart.

In As Long as It's Fun, the biography of Lin and Larry Pardey, Herb McCormick recounts their remarkable sailing career—from their early days in Southern California to their two circumnavigations to their current life in a quiet cove in New Zealand. Through interviews with their families, friends, and critics, McCormick delves deeply into the couple's often-controversial opinions, sometimes-tenuous marriage, and amazing list of accomplishments. As Long as It's Fun is as much a love story as it is a sea yarn, and, like all such stories, it's not without complications . . . which makes it not only a sailing tale but also a human one.

India's history and culture is ancient and dynamic, spanning back to the beginning of human civilization. Beginning with a mysterious culture along the Indus River and in farming communities in the southern lands of India, the history of India is punctuated by constant integration with migrating peoples and with the diverse cultures that surround the country. Placed in the center of Asia, history in India is a crossroads of cultures from China to Europe, as well as the most significant Asian connection with the cultures of Africa. The Historical Dictionary of Ancient India provides information ranging from the earliest Paleolithic cultures in the Indian subcontinent to 1000 CE. The ancient history of this country is related in this book through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on rulers, bureaucrats, ancient societies, religion, gods, and philosophical ideas.

A collection of 24 stories written by talented authors. No two writers are the same, but they have one thing in common: they are storytellers at heart and their deepest desire is to be heard. Writing the Dream shares the stories of twenty-four Australian writers, from emerging to established authors. Some are traditionally published, while others have taken the self-publishing route. Some have faced rejection after rejection, while others have had a dream path. But, while their writing journeys are different, all of them strive to create, entertain, inspire and inform. And all of them have unique and creative voices that deserve to be heard. With contributors including Anna Jacobs, Juliet Marillier, Natasha Lester, Jenn J McLeod, and a host of other talented writers, the stories in Writing the Dream are set to strike an inspirational chord in every hopeful writer's heart.

3 The Incarnation of Jesus Christ Set out in three parts, viz.: I. How the eternal Word has become man; and of Mary the Virgin, who she was from her first beginning, and what sort of mother she became by conception of her son Jesus Christ. II. How we must enter into the suffering, dying and death of Christ; and out of his death rise again with him and through him, and become like his image, and live eternally in him. III. The tree of Christian faith. A true instruction, showing how many may be one spirit with God, and what he has to do to work the works of God. Written according to divine illumination. by Jacob Bohme in the year 1620 Translated from the German by

Get the latest boatbuilding tips from this updated classic: Since its first publication in 1970, Boatbuilding Manual has become the standard reference in boatbuilding and boat design schools, in the offices of professional builders, and in the basement workshops of home builders. No other boatbuilding text has simultaneously served the disparate needs of professional and amateur audiences so successfully. Carl Cramer, the publisher of WoodenBoat and Professional Boatbuilder magazines, has fully updated this fifth edition with the latest in boatbuilding techniques and developments. Includes: The latest wood-epoxy construction methods that make amateur building more successful than ever before Recommendations on products and materials, saving you time and money substantial time and expense Topics include: Plans, Tools, Woods, Fiberglass and Other Hull Materials, Fastenings, Lines and Laying Down, Molds, Templates, and the Backbone, Setting Up, Framing, Planking, Deck Framing, Decking, Deck Joinerwork, Interior Joinerwork, Finishing, Sailboat Miscellany, Steering, Tanks, Plumbing, etc, Mechanical and Electrical, Potpourri, Safety

The familiar yellow Technical Instruction series from Bosch have long proved one of their most popular instructional aids. They provide a clear and concise overview of the theory of operation, component design, model variations, and technical terminology for the entire Bosch product line, and give a solid foundation for better diagnostics and servicing. Clearly written and illustrated with photos, diagrams and charts, these books are equally at home in the vocational classroom, apprentice's toolkit, or enthusiast's fireside chair. If you own a car, especially a European one, you have Bosch components and systems. Covers: -System Overview -Helix and port controlled distributor injection pumps -Axial Piston Pump (VP29, VP30) -Radial Piston Pumps (VP44)
