Part II is concerned with elements of interpretation that contribute to thorough utilization of data in a Rorschach protocol: the Comprehensive System search strategy; the complementary roles of projection and card pull in determining response characteristics; and the interpretive significance of structural variables, content themes, test behaviors, and the sequence in which various response characteristics occur.

Principles of Rorschach Interpretation (Personality and ...

Exner's Rorschach interpretation perceives such mirroring responses as the result of a "self-reflective and thoughtful personality". Only one mirroring response of this kind will lead to that the test person will be designated as "egocentric" with a "pronounced tendency to overestimate his personal value."
