Jazz in Socialist Hà Nội: Improvisations between Worlds examines the germination and growth of jazz under communist rule—perceived as the "music of the enemy" and "ideologically decadent"—in the Vietnamese capital of Hà Nội. After disappearing from the scene in 1954 following the end of the First Indochina War, jazz reemerged in the public sphere decades later at the end of the Cold War. Since then, Hà Nội has established itself as a vital and vibrant jazz center, complete with a full jazz program in the national conservatoire. Featuring interviews with principal players involved in cultivating the scene from past to present, this book presents the sociocultural encounters between musicians and the larger powers enmeshed in the broader

political economy, detailing jazz's journey to garner respect comparable to classical music as an art form possessing high artistic value. Ethnographical sketches explore how Vietnamese musicians learn and play jazz while sustaining and nurturing the scene, providing insight as to how jazz managed to grow in such an environment. Jazz in Socialist Hà Nội sheds light on those underlying caveats that allow Vietnamese jazz musicians to navigate the middle grounds between "worlds"—between music and politics—not as an act of resistance, but as realisation of artistic expression.

During his twenty-year tenure as a columnist for *Viet Nam News*, Hà Nội's English-language newspaper, Hieu Ngoc charmed and invigorated an international readership hungry for straightforward but elegant entrees into understanding Vietnamese culture. The essays were originally collected in the massive *Wandering through Vietnamese Culture*. With *Viet Nam: Tradition and Change*, Ohio University Press presents a selection from these many treasures, which are perfectly suited to students of Vietnamese culture and travelers seeking an introduction to the country's rich history, culture, and daily life. With extraordinary linguistic ability and a prodigious memory, Hieu Ngoc is among *Viet Nam's* keenest observers of and writers about traditional Vietnamese culture and recent history. The author's

central theme—that all tradition is change through acculturation—twines through each of the book’s ten sections, which contain H?u Ng?c’s ideas on Vietnamese religion, literature, history, exemplary figures, and more. Taken on its own, each brief essay is an engaging discussion of key elements of Vietnamese culture and the history of an issue confronting Vi?t Nam today.

Quy?n V?n Minh (b. 1954) is not only a jazz saxophonist and lecturer at the prestigious Vietnam National Academy of Music, but he is also one of the most preeminent jazz musicians in Vietnam. Considered a pioneer in the country, Minh is often publicly recognized as the “godfather of Vietnamese jazz.” *Playing Jazz in Socialist Vietnam* tells the story of the music as it intertwined with Minh’s own narrative. Stan BH Tan-Tangbau details Minh’s life story, telling how Minh pioneered jazz as an original genre even while navigating the trials and tribulations of a fervent socialist revolution, of the ideological battle that was the Cold War, of Vietnam’s war against the United States, and of the political changes during the ??i M?i period between the mid-1980s and the 1990s. Minh worked tirelessly and delivered two breakthrough solo recitals in 1988 and 1989, marking the first time jazz was performed in the public sphere in the socialist state. To gain jazz acceptance as a mainstream musical art form, Minh

founded Minh Jazz Club. With the release of his debut album of original compositions in 2000, Minh shaped the nascent genre of Vietnamese jazz. Minh's endeavors kickstarted the momentum, from his performing jazz in public, teaching jazz both formally and informally, and contributing to the shaping of an original Vietnamese voice to stand out among the many styles in the jazz world. Most importantly, Minh generated a public space for musicians to play and for the Vietnamese to listen. His work eventually helped to gain jazz the credibility necessary at the national conservatoire to offer instruction in a professional music education program.

Music was integral to the profound cultural, social and political changes that swept the globe in 1968. This collection of essays offers new perspectives on the role that music played in the events of that year, which included protests against the ongoing Vietnam War, the May riots in France and the assassination of Martin Luther King, Jr. From underground folk music in Japan to antiauthoritarian music in Scandinavia and Germany, *Music and Protest in 1968* explores music's key role as a means of socio-political dissent not just in the US and the UK but in Asia, North and South America, Europe and Africa. Contributors extend the understanding of musical protest far beyond a narrow view of the 'protest song' to explore how politics and social protest played out in many genres, including experimental and avant-garde music, free jazz, rock, popular song, and film and theatre music.

Born on January 17, 1924, Nguyen-Dinh-Hoa grew up in Hanoi never imagining the war that would ultimately divide his country and throw the region into chaos. As he grew into manhood, he witnessed Vietnam gain its independence in 1945, and like many men of his age he was swept up with the revolutionary mood that engulfed the entire country. Eager to do his part for the newly emerging Vietnam, he applied for and received a scholarship to Union College in Schenectady, New York. This resulted in an English degree and a teaching position at the University of Saigon. Since childhood, the author has been keenly observant of everyday life, particularly the interactions between himself, his family and their community. His precise account of midcentury Vietnam provides a detailed picture of a beautiful country with a rich cultural heritage, and serves as a poignant reminder of the devastating effects of the war in Vietnam on its people.

The Saigon Sisters offers the narratives of a group of privileged women who were immersed in a French lycée and later rebelled and fought for independence, starting with France's occupation of Vietnam and continuing through US involvement and life after war ends in 1975. Tracing the lives of nine women, The Saigon Sisters reveals these women's stories as they forsook safety and comfort to struggle for independence, and describes how they adapted to life in the jungle,

whether facing bombing raids, malaria, deadly snakes, or other trials. How did they juggle double lives working for the resistance in Saigon? How could they endure having to rely on family members to raise their own children? Why, after being sent to study abroad by anxious parents, did several women choose to return to serve their country? How could they bear open-ended separation from their husbands? How did they cope with sending their children to villages to escape the bombings of Hanoi? In spite of the maelstrom of war, how did they forge careers? And how, in spite of dislocation and distrust following the end of the war in 1975, did these women find each other and rekindle their friendships? Patricia D. Norland answers these questions and more in this powerful and personal approach to history.
